

JORDY FABIAN VILLAMIL LAWYER

Desarrollador Full-Stack | Ethical Hacker | Scrum Practitioner

Tocancipá, Cundinamarca, Colombia | +57 320 425 42 87

jordyvillamilletras@gmail.com | linkedin.com/in/Jordy-Villamil | jordyvillamil.github.io

PROFESSIONAL PROFILE

Sixth semester student of software engineering, Technologist in Software Analysis and Development with a specialization in Cybersecurity (Google and Universidad de los Andes) and training in Full-Stack development (Microsoft). Solid experience in Secure SDLC and application development under containerized architectures with Docker. Mastery of multiple tech stacks: Python, Django, Django REST Framework, PHP, Laravel, React, TypeScript and Next.js and soon C# Y.NET. Agile Scrum methodology practitioner with knowledge in enterprise software architectures including Hexagonal, Microservices and N-Layers. English level: B1.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework, PHP, Laravel, API RESTful, Autenticación JWT, MySQL, PostgreSQL, Gunicorn

Frontend: React, React Hooks, Context API, Next.js, TypeScript, JavaScript ES6+, Tailwind CSS, Framer Motion, HTML5, CSS3

DevOps and Security: Docker, Docker Compose, CI/CD, GitHub Actions, Secure SDLC, Vulnerability Scanning, Backup Management, Disaster Recovery Plan (DRP)

Software Architectures: Hexagonal Architecture, Three-Layer Architecture, Monolithic Architecture, Microservices

Methodology: Agile Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer – GLOBAL ENTREGAS S.A.S, Colombia

February 2023 – December 2024

- I developed frontend components of the corporate web platform using React, TypeScript and Tailwind CSS.
- I programmed backend server logic, managed databases, and implemented security and authentication modules.
- I prepared technical documentation of the software development life cycle (SDLC), facilitating the traceability of the project.
- Performed corrective maintenance and behavior analysis of the application, ensuring operational stability.
- I provided technical support in infrastructure management and collaborated in data analysis to optimize operational processes.

Computer Center Assistant (Internship) – HEON HEALTH ONLINE, Bogota, Colombia

April 2025 – October 2025

- Ensure business continuity through scheduled management and restore of critical virtual machines and databases.
- Implemented a system of daily verification of backups generating integrity reports for management decisions.
- I participated in tests of the Disaster Recovery Plan (DRP), identifying bottlenecks and reinforcing protocols.
- Contributed to the development and maintenance of internal applications using Django and React.

FEATURED PROJECTS

Finan-Core – Personal Financial Management System

Technologies: PHP, Laravel, MySQL, Docker, Hexagonal Architecture

- I designed and implemented hexagonal architecture (Ports and Adapters) for maximum maintainability and stability of the code.
- I developed RESTful APIs with Laravel following SOLID principles and enterprise design patterns.
- Implemented transaction management, automatic categorization and generation of financial reports.

EduGestión 360 – Full-Stack Academic Management Platform

Technologies: React, Django, Django REST Framework, MySQL, Docker

- I designed and deployed 100% containerized full-stack architecture with Docker Compose.
- Implemented role-based authentication and authorization system using JSON Web Tokens (JWT).
- I built modular RESTful API for CRUD management of users, grades, courses, and subjects.

TimePieces – E-commerce with Interactive 3D Visualization

Tecnologías: Vite, React Three Fiber, Django, PostgreSQL, TypeScript, Docker

- I developed immersive frontend with React Three Fiber allowing interaction with 3D models in real time.
- I built high-performance RESTful APIs with Django 5 and Django REST Framework.
- I implemented TypeScript to ensure type-safety and maintainability of the frontend code.

EWEADN Landing Page – Modern Frontend Prototype

Tecnologías: React, TypeScript, Vite, Framer Motion, Tailwind CSS

- I developed prototype implementing 2025 design trends including Video Hero and Glassmorphism effects.
- I integrated high-performance (60fps) smooth animations and micro-interactions with Framer Motion.
- I used Tailwind CSS for 100% responsive utility-first design optimized with Vite.

TRAINING AND CERTIFICATIONS

- **Microsoft Full-Stack Developer Professional Certificate** – Microsoft (En curso)
- **Specialization in Cybersecurity** – Universidad de los Andes (Coursera)
- **Google Cybersecurity Professional Certificate** – Google (Coursera)
- **Software Analysis and Development Technologist** – SENA
- **Software Engineering** – Politécnico Grancolombiano (Ongoing)

SOFT SKILLS

Complex Problem Solving, Continuous Learning, Adaptability, Critical and Analytical Thinking, Creativity and Innovation, Emotional Intelligence, Collaboration and Teamwork, Effective Communication
